Date effective	October 2016
Date for review	October 2018
Purpose	To ensure the safety and wellbeing of children in education and care
Responsibility	Educators, Educator Assistants, Staff

Key information:

Parents need to be able to access the Educator's service during the hours education and care are provided and Educators and Families need to follow procedures which ensure that children only leave the Educator's service with nominated persons.

Policy:

Delivery and Collection

Parents

- The enrolling parent needs to provide their own personal contact details on the enrolment form along with the name and contact details of their partner (if applicable) and at least one other responsible adult who is authorised to collect the child from care (a nominee). These details will be supplied to the Educator as part of the Contract.
- A person claiming to be the child's parent who is not identified on the enrolment form is not authorised to collect the child unless they supply the Coordination Unit with proof of identity corresponding to details on the child's birth certificate and, if applicable, certified copies of Court Orders which identify times they have care and control of the child. The Coordination Unit will need to verify the conditions of the Court Order before the person can collect the child.
- A parent who has been identified on the enrolment form will continue to be authorised to collect the child until such time as the Nominated Supervisor is supplied with Court Orders which state they no longer have care and control of the child.
- The enrolling parent can ask the Coordination Unit to forward information about the child or general family day care information to the non-enrolling parent. Whilst it is acknowledged

that both parents have a right to information unless forbidden by a court order, a parent who is not identified on the enrolment form must provide proof of identity, and parental status before information will be released.

- If there is a change in authorized nominees, Parents need to advise the Educator in writing. The Educator needs to then inform the Coordination Unit.
- Parents using before or after school care with a Family Day Care Educator need to ensure that they have signed appropriate forms relating to the child's transport from and to the Educator's premises.
- Parents need to notify the Educator if their child does not require collection from school on a particular day e.g. if the child did not attend school due to illness.
- Parents need to notify their Educator if they are running late to collect their child.

Educators

- A Family Day Care Educator must not prevent the parent of a child from entering their premises when their child is in care unless the parent's entry would pose a risk to the safety of the children or the Educator is aware that the parent is prohibited from contact by a Court Order.
- Educators are responsible for the children in their care during the actual hours of attendance. Attendance records will be available for parents to record and initial exact arrival and departure times.
- The Educator will need to add School Transport to their list of Routine Excursions if they themselves are providing this transport.
- Fences and gates surrounding the play area must be secure and designed to prevent intruders from entering or children leaving the area unsupervised. During outdoor play, gates must be locked to prevent intruders from entering the area. When children are indoors all exit doors must be locked to prevent children from leaving unaccompanied or intruders from entering the home.

When things go wrong

- Educators need to notify the family and the Coordination Unit if a Before or After School Care child does not arrive at the Educator's home at the specified time {or if a child is not at their normal collection point at the specified time}.
- If a parent is sending an unauthorized nominee to collect their child they must contact the Educator and provide them with the name and address of the person they are sending and the Educator will need to verify this person's identity before the child is released into their care and control.
- If a parent/authorized nominee has not collected a child in care, if they have not advised the Educator that they will be late and cannot be contacted the Educator is advised to call the Coordination Unit on 6772 5300 or 0417550072 after hours. Educators should continue to try to contact the parent/authorized nominee and call the Coordination Unit again if this is unsuccessful. After an hour has elapsed the Educator is advised to contact the Police.

- If a parent /authorized nominee appears to be under the influence of alcohol or another drug which may impair their ability to care for the child, the Educator may suggest that another authorized nominee be called. If the parent or authorized nominee chooses to leave with the child, or if they begin to pose a threat to the Educator or other children in care, the Educator should call the Police and the Coordination Unit for assistance. As a Mandatory Reporter, they may also contact the Community Services Helpline (133627).
- An unauthorized person seeking to collect a child from the Educator’s service will be referred to the Coordination Unit to seek clarification regarding contact.
- The Educator has a right under common law to request that the unauthorized person leave their premises. If the person refuses to leave the Educator will contact the Police and advise them that they have a trespasser present.
- If the unauthorized person removes the child from care the Educator will contact the parent, the Coordination Unit and the Police.
- An Educator must not allow entry to their service of a person who has been forbidden by a court order from having contact with a child in care. They must not provide the person with any information about the child or allow them to collect the child.

Coordination Unit requirements

- When required to do so, the Coordination Unit will seek legal advice about the validity of the documents provided by the parent/s and their relevance to the provision of care.
- If required to do so, the Coordination Unit will provide the Educator with written advice detailing the requirements of any legal court orders supplied to it, including whether any person has been forbidden from contact with the child at the Educator’s premises or at a Family Day Care venue such as playsession.
